Above the arrow, the text 'IT's time to do something different!' is written in a grey, italicized font.

**Do IT Better Consortium (DIBC)
member suppliers believe that the
degree of success and value gained
from IT enabled business process
can and should be significantly
higher than historic and current
industry norms.**

Methods used by DIBC member suppliers consist of a uniquely formulated blend of tried and tested methods (TRADITIONAL/EXISTING) combined with progressive new models more appropriate to current and future business needs (RADICAL/PROGRESSIVE).

**The value of IT
enabled process
arising is as
strong as the
weakest link in a
chain...and some
links have been
weak or non
existent...**

Many pieces of good or even great work have been done in this area but the whole jig-saw has not been made... until recently...

**Several key jig-saw pieces
previously missing have now
been provided...**

**DIBC member suppliers use
the unique Business Value
Maximisation Framework
(BVMF®) devised by David P
Jacobs of MaxVal Consultancy
Limited**

So now, there must be a better way. There is. DIBC.
